

Bausch & Lomb, the global market leader in contact lenses for the correction of astigmatism, offers you two options to suit your lifestyle – daily disposable lenses or re-usable monthly lenses

Even if you have a low level of astigmatism, the Bausch & Lomb lenses could significantly improve your vision, as they are designed to fit the unique shape of the eye as closely as possible and **remain stable**, even for the most active lifestyles. The innovative optical design provides **amazing details and crisp, clear vision** even in challenging light conditions such as **driving at night**. Even if you are astigmatic you 'll see everything life has to offer with **amazing clarity and detail**.

-> If you prefer daily disposable contact lenses

**Bausch & Lomb
Soflens.**
daily disposable toric
(Hilafilcon B)

For Astigmatism

A new pair of fresh lenses every day that doesn't require cleaning or storing. The blister packs feature an easy-to-grip tab and smooth tear-away label. The blister packs also click together making them easy and convenient to carry around. Available in 30- or 90-pack sizes.

-> If you prefer monthly contact lenses

**Bausch & Lomb
PureVision.**

Monthly contact lenses, designed to give you healthy eyes, outstanding comfort and visual quality. You wear them in the morning and remove them at the end of the day. When not worn they must be stored in a contact lens case in order to be cleansed and disinfected by the proper solution. After one month they must be replaced with a new pair.

Whichever your choice, Bausch & Lomb offers you High Definition Vision - Crisp, sharp vision to enjoy vivid colours and improved contrast even in low light conditions.

Talk to your Eye Care Professional about how Bausch & Lomb contact lenses for astigmatism can work for you and ask for a trial.
